Artistic Director/Conductor STEVEN ALLEN FOX Music Director VICTOR PESAVENTO Resident Choir Maestra MARYA BASABARA

**Drew Struzan** — His artwork is known around the world. His iconic movie posters are images we all grew up with. Beloved film music, movies and artwork come together in this utterly unique concert. We pay tribute to the legendary Drew Struzan and his remarkable body of work. Newly created “visual suites,” beautifully displaying Drew’s various sketches, alternate drawings and final paintings will be shown on screen above the orchestra as an epic program of classic film music is performed.

George Lucas and Steven Spielberg have relied on Drew, time and time again. When we think of *Back To The Future* we immediately think of Drew’s painting of Marty McFly standing beside the DeLorean, looking at his watch. All of your favorite film characters ... from Luke Skywalker, Indiana Jones and Harry Potter to Kermit The Frog, Fievel and Hellboy, have been drawn by Drew.

This is a landmark, one of a kind film music celebration!
